6. [ ] Talked with [ ]  
[ ] ORR, concerning several items which State Department proposes to use in their dealings with the Congress. One involves a maritime study which the Department is making available to Representative Mailliard but it has been agreed that the Department will make no further reference to the Agency or to the fact that the Agency is also preparing material on this subject. The other item has to do with a State Department paper on Soviet large diameter pipe. The State Department understands that there is to be no attribution to the Agency with regard to their paper other than to indicate that it was prepared in collaboration with a number of executive departments and agencies.

7. [ ] Talked with Captain L. L. Meier, Assistant Legislative Liaison of the Joint Chiefs of Staff, in connection with further hearings of the Senate Preparedness Subcommittee on U.S. commitments abroad. Meier said that DOD had also received a communication from the Subcommittee concerning appearances of the Secretary of Defense and the Chairman of the Joint Chiefs. At this point it is very indefinite as to when or if either of these individuals will appear. We propose to be in touch with the Subcommittee Counsel concerning the Agency's presentation.

8. [ ] Coordinated with Admiral Taylor, the draft background statement prepared by Mr. Goodwin, and then delivered fifty copies of the approved statement to the Senate Armed Services Committee. Met with Mr. Bill Darden concerning the possible date for confirmation hearings for Admiral Taylor and ascertained that at present, it does not appear that the full Committee will be meeting before Thursday, 29 September. Mr. Darden advised that the Chairman's interest with regard to financial statements is primarily regarding holdings in companies with which the Agency does business. No further information on the confirmation hearings will be forthcoming by present estimates before next week.

13. [ ] Met with Mr. Thad Murray, Assistant to Representative Porter Hardy, Jr., and returned to him the original correspondence received from [ ] and advised that the Agency had received a somewhat similar letter of the same date. After processing, the Agency had determined not to respond. Mr. Murray indicated that their office would not be responding but would await a possible further communication from [ ] before consideration of any follow up in the matter. No further action by the Agency is indicated.
